DRY GOODS

School Opens SWA September 17th.

That should make you think about preparing your Children's School Outfits. But little more than two weeks to do it in, it would be advisable to begin now. This store caters to the wants of the children with clothing the "grown ups." Consequently, it enjoys an enviable reputation for selling the best, and at prices often demanded for inferior articles.

We are showing New Fall Dress Goods, New Plaids, hams. New Percales. New French Satines and New Flannelettes.

Alexandria Gazette. THURSDAY EVENING, SEPT. 13, 1906.

The Fields of Peace It was the belief of the ancient Egyptians, according to a recent writ-er, that everything, material and immaterial, had its immortal double. Out of this grew the idea of a life in the future state of perfect happiness in the "fields of peace." For a long time the common people regarded these "fields of peace" not as a celestial place, but as situated in the fertile and well watered regions of the Nile delta in the northwest of Egypt, where the blessed ever breathed the cool north wind. Here they lived an ideal form of their life upon earth. They plowed their fields and grew the grain which supplied them with the "bread which supplied them with the "bread which grew not stale and beer that never became sour." Here was situ-ated the duplicate of their earthly

Portuguese Bullaghts, At Portuguese builtights not only are the points of the bulls' horns sawed off, but the stumps that remain are carefully padded. The horses also are ridden with consummate skill, and every precaption is taken to prevent the bull touching them. Banderillas are used by the men on foot and on horse-

back and are planted in the neck of the buil, which irritates the buil, but cannot be described as torture. Just as much skill is shown as in a Spanish bullfight, and there may be just as beautiful a display of costumes, but there is no killing either of the bull or of the horses.

A Woman's Revenge.

It is perfectly incomprehensible how man can go on wearing the clothes he does—how he can balance on his head a buge black jam pot with a ledge to a huge black jain pot with a ledge to it, incase his limbs in long, tight sacks of dingy hue and wear round his manly throat something resembling a shining metal band. Every new fashion for man that comes out appears to me ugiler than the last.—Spinster in M. A. P.
